An event from Gmail has been added to your  
Google Calendar

Hey, HITESH VAIDYA!

Google Calendar adds events from Gmail, like reservations for flights and restaurants, to your calendar automatically. The following event has just been added from Gmail to your calendar:

- Flight to Port Blair (G8 461) on Sun Feb 25, 2018 at 4:05am - [View](#)

If you'd prefer, you can turn this feature off in Google Calendar settings.

[Learn more](#) about events from Gmail on your calendar. In the future, you will not get further emails when events are added.

Best,  
The Calendar Team
